

# SLIME LABELS

## DIY INSTRUCTIONS AND TIPS

### HOW THIS WORKS:

These files are being sent to you in PDF format, unless otherwise noted. You will need Adobe Reader to read them. If you do not have Adobe Reader, you can download it for free here: <http://get.adobe.com/reader/>

These files were designed to be printed by you on your home printer, or at your local printing company. Please be sure that the files are set to 100% resolution and that the “print actual size” option is selected on your printer to ensure that your items print out accurately.

For best results, be sure to select the “best” or “high resolution” option on your printer, and choose the appropriate paper setting. The designs are best printed on bright white, heavyweight cardstock paper.

You may print the designs as many times as you’d like, I just ask that you respect my work and please do not copy, share, or redistribute them.

Once the designs are printed, simply cut them out and enjoy...it’s as easy as that!

### Here are the supplies we recommend you have on hand:

- Scissors
- Paper trimmer (not necessary, but very helpful)
  - A 2-inch circle cutter
  - Double-sided tape
- [Slime containers from Oriental Trading](#)

### INSTRUCTIONS:

Use a paper trimmer or scissors to cut the page into columns, then use a 2-inch circle cutter to cut clean, uniform circles. Use tape to secure the circles to the slime containers.
